

Video Doorbell

Imagine the possibilities behind a “**DING DONG**”

What can it do for you?

See who's ringing with video doorbell
from **anywhere** and in **anytime**

Never miss a visitor

Get and answer ringing alerts instantly on the phone

Smart security for home

Detect motion outside to protect property from phone

24/7 Nonstop protection

Hardwired powered for 24h monitoring

How it works?

People **ring** or **detect motion** when they access to property

Instantly **receive notifications** on the portable devices such as phone

See, hear and **talk** to people on the live view from anywhere and in anytime

Never miss a visitor

Always be the first one to know when you have a visitor with motion detection and notification in day and night

Custom motion zones

- Draw the concerned monitoring area by fingers
- Reduce needless detection alarm

Instant mobile alerts

- Low delay notification pushing
- Fast calling response

Clear infrared night image

- 5m night visible distance
- Automatically switching in day and night

Free to answer the door from anywhere

When doorbell was press or triggered, you can use the free app to see, hear and talk to guests from your portable devices such as smartphone no matter where you are or what you are doing

HD video quality

Crystal-clear 1080p full HD video

2-way talk

Built-in Mic & speaker
HD Talk and listen on the APP

Super wide viewing angle
